

Origami⁷

The Proceedings from the
7th International Meeting on
Origami in Science, Mathematics, and Education

Volume 3: Engineering One

Editorial Board

Robert J. Lang, Mark Bolitho and Zhong You
Norma Boakes, Chris Budd, Yan Chen,
Mary Frecker, Simon Guest, Thomas Hull,
Yves Klett, Jun Mitani, Jorge Pardo,
Glaucio Paulino, Mark Schenk, Tomohiro Tachi,
Ryuhei Uehara, and Patsy Wang-Iverson

Origami⁷ Volume 3 Contents

General Preface	vii
Preface to Volume 3	xi
Deployable Structures Inspired by Origami	
Design of an Origami-Inspired Deployable Aerodynamic Locomotive Fairing <i>Kyler Tolman, Erica Crampton, Chad Stucki, Daniel Maynes, Larry L. Howell</i>	669
Folding Mechanisms with Discriminate Extremal Configurations for Structural Purposes <i>H. Buffart, S. Hoffmann, J. Paris, C. Weigel, J. Siebrecht, B. Corves, M. Trautz</i>	685
Deployable Sub-module for Space Solar Power Station Based on Origami <i>Yuzhen Tang, Meng Li, Hongwei Guo, Rongqiang Liu, Zongquan Deng, Dewei Tang</i>	699
A Kirigami-inspired Foldable Model for Thick Panels <i>C. Wang, J. L. Li, Z. You</i>	715
Rigidly Foldable Rotational Erection System (RES) <i>Y. Miyamoto</i>	731
Deployable Structures Inspired by Insect Wing Folding <i>K. Saito, T. Tachi, T. Fujikawa, R. Niiyama, Y. Kawahara</i>	747
Origami-Based Deployable Ballistic Barrier <i>Kenny Seymour, Dakota Burrow, Alex Avila, Terri Bateman, David C. Morgan, Spencer P. Magleby, Larry L. Howell</i>	763
Structural Design using Origami	
ORIGAMI-SCISSOR Hinged Geometry Method <i>E. Rivas-Adrover</i>	779
Designing Self-Blocking Systems With Non-Flat-Foldable Degree-4 Vertices <i>R. Foschi, T. Tachi</i>	795
Fitting Surfaces with the Miura Tessellation <i>H. Nassar, A. Leb'ee, L. Monasse</i>	811
Fabrication of Polymeric Origami Tube <i>H. Wang, D. Zhao*, M. Wang, Z. You</i>	827
Two-Layered Origami Tessellation <i>Y. Yamamoto, J. Mitani</i>	835
Curved-Crease Origami with Multiple States <i>T.U. Lee, Y. Chen, J.M. Gattas</i>	849
Lens Tessellation Inspired Surface Approximation <i>G.Stern, R. Maleczek</i>	865
Deployable Honeycomb Structures <i>R. Maleczek, K.Saito</i>	877

Programmable 3-D Surfaces using Origami Tessellations	893
<i>Hang Yuan, James Pikul, Cynthia Sung</i>	
Bistable Behaviour of a Deployable Cylinder with Kresling Pattern	907
<i>Q. Zhang, J.G. Cai, M. Li, J. Feng</i>	
A Generative Shape Grammar for Piecewise Cylindrical Surfaces and Curved-Crease Origami	921
<i>J.M. Gattas</i>	
Multiphysics Origami: Achieving Tunable Frequency Selective Surfaces from Origami Principles	935
<i>L. S. Novelino, S. A. Nauroze, M. M. Tentzeris, G. H. Paulino</i>	
Robotics	
Crawling Cylindrical Origami Robot Driven by Single Actuator	949
<i>F. Okuya, T. Umedachi, K. Saito, Y. Kawahara</i>	
Leveraging Compliance in Origami Robot Legs for Robust and Natural Locomotion	965
<i>X. Deng, C. Sung</i>	
The Spinning Cyclic ‘Miura-oRing’ for Mechanical Collision-Resilience	981
<i>Pooya Sareh, Pisak Chermprayong, Marc Emmanuelli, Haris Nadeem, and Mirko Kovac</i>	
Modular Origami and Metamaterials	
A Modular Origami-inspired Mechanical Metamaterial	995
<i>Y. Yang, Z. You</i>	
An Interactive Design System for Deltahedron-based Modular Origami	1009
<i>N. Tsuruta</i>	
Appendix A: Editorial Board and Contributors	A1-1
B: Index to all Volumes	B1-1
